BPC X-8CB Collapsible Cargo Basket

The BPC X-8CB is designed for versatile lifting of heavy equipment cargo or luggage during crew changes. Cargo can be maneuvered into the basket while it's collapsed, in turn reducing the risk of manual handling injuries. The inner vinyl canvas prevents smaller objects from rolling out and the rounded/padded design reduces potential damage to boats.

Note: this model is not rated for personnel use.

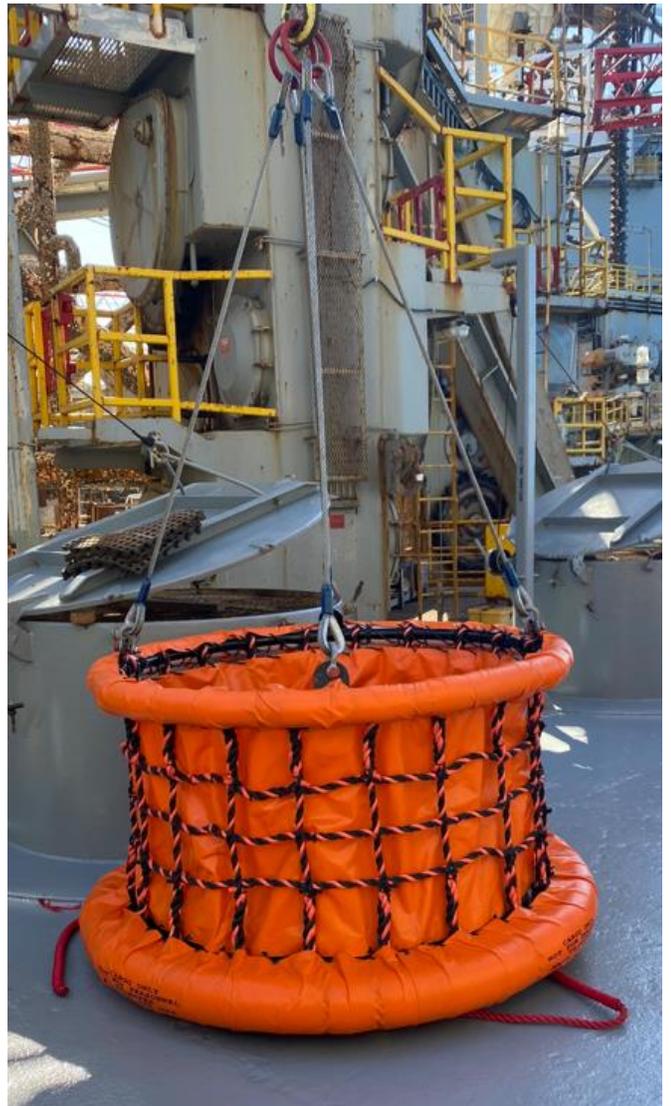

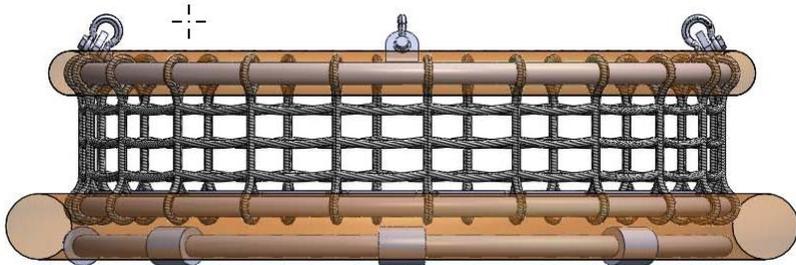

Product Highlights

- Working Load Limit (WLL) of 3,500 lbs.
- 1/8" steel diamond/checker plate floor
- 5/8" galvanized lifting slings
- 4" upper foam padding covered with heavy duty vinyl fabric
- 6" lower foam padding covered with heavy duty vinyl fabric
- Rubber feet for deck protection
- Overall height from the feet to the lifting links is approximately 10 feet
- Raised walls of the basket are 3 feet in height
- Basket outer diameter is 6 feet
- Overall weight of the basket and the rigging is 352 lbs.
