

# Strike Guard

## Rig –Tough Safety Cap for PRY bars

The **Strike Guard** is your first line of defense. Engineered from the same ultra-durable, impact-absorbing material used in rig mats, the Strike Guard fits securely onto the end of your existing pry bars. Its innovative design blunts the impact, protecting your employees from harm without interfering with the tool's operation.

## Turn Your Pry Bar from a Hazard into a Protected Tool.

On any job site, from a rig floor to a construction zone, a pry bar is essential. But it's also a major safety hazard. A slip, a drop, or an accidental contact can result in serious, costly injuries, from deep cuts to broken facial bones.

### Key Benefits

- PREVENTS FACIAL & JAW INJURIES:** The rounded, energy-absorbing design deflects and softens accidental blows.
- REDUCES CUTS & LACERATIONS:** Eliminates the sharp, exposed end of the bar, protecting hands and bodies.
- RIG-TOUGH DURABILITY:** Made from an extremely strong, impact-resistant material designed to withstand the harshest environments.
- UNIVERSAL FIT:** Slides securely onto all standard pry bars in seconds—no tools required.

**Protect Your Crew. Mitigate Risk. Invest in Smarter Safety.**
